The book contains the ideas which have worked for me, and the ideas which haven't worked for me, and I wanted to share these stories with you, so that you can take out all my positive energies, my hidden knowledge, and use them. I really believe that the theory is far more important than the theory. So if it works, it works, and if it doesn't, it doesn't. There is a method, a process which can be applied to all situations.
