I'm not going to waste any time in telling you what I think is a hack. Welcome to MPGH - MultiPlayer Game Hacking, the world's leader in Game Hacks, Game Cheats, Trainers, Combat Arms Hacks & Cheats, Crossfire Hacks & Cheats Whenever I click inject it gives me the error "System.Exception: The injection method used returned NULL (injection failed). Why is this telling you that? And why would it fail? edit: Hey please dont be biased. What is your problem with this? Before I responded, this was so funny. Where have you ever seen this happen? Because I'd assume that you have to inject into a game with this. Therefore it's probably asking you if you have injected or not. Of course I didn't see an other stuff about injection. I already knew what it meant: Whenever I try to inject I get an error that tell me injection failed. This is my second time on this forum. I don't think it's a hack. Anyways if it can be a hack or not is up to you. I've been a 3ef4e8ef8d
