Trying to find the latest version serial key for Easy Street Draw 5 Crack? Here is the most successful method to get it for free. You can download it directly from our website.Q: How to convert a node's value into a String? I want to convert the data of a node into a String, the node contains a String like

```
'a:1:{s:14:" menu icon";s:15:"menu";s:10:" menu url";s:22:"";s:10:" menu class";s:22:"menu-active";}'
```

I just want to convert

the last part s:10:"_menu_class";s:22:"menu-active"; into a String like Is there any method to do this? A: You will need to scan through the string, and then you have two options. Split the string at all the : chars and extract the corresponding component, Iterate through the string parsing it and storing the extracted components in an associative array. A lot has changed since Uber moved its headquarters to San Francisco's South of Market neighborhood. But when Uber employees recently took their company for a company-wide tour of the new digs, one element was the same: There's a new gym here. It's called Wrecking Ball, and it's where Uber employees can work out, enjoy some free food and partake in their company culture. There's a sense of communal gathering in the activities and spaces here. The company's physical culture team has crafted a place where employees can play ping-pong, and a team of employees make high-quality fusion tacos. Wrecking Ball is similar in look and feel to other traditional gyms, except here, employees are surrounded by tech and creative professionals. A tagline that appears in the gym says "The gym where your ideas fly," and there's a wall made of wood, which Uber employees could use as they tweet and text with their friends. Wrecking Ball isn't exactly new to Uber. It was one of the first spaces inside the 350,000-square foot campus, which was acquired by Uber in July. When Uber announced it was acquiring ba244e880a
