Hello XAF Team, i have downloaded the source code of DevExpress Universal 12.2.6 (2013), and run A607 and A608 scripts from A609 but i get an error during compilation. A different error on every compile. Is this a problem in A609 script? or in XAF 12.2.6 source code? Thanks farhad A: The problem in source code was solved by adding the following code to line number #116 of classes\fxeditor\CRContainersEditor.cs: public string MaxLength { get { return this.MaxLengthValue.ToString(CultureInfo.InvariantCulture); } set { this.MaxLengthValue = value; this.MaxLengthIsSet = true; } } See link: Because DevExpress Universal source code don't have line number 116 Farhad [The challenge of developing new diseases].
