A man has been killed in a road traffic accident in Auckland's west after his car ploughed into another vehicle. The crash  
happened in Karangahape Road, in the St Lukes area, about 10.20am. The vehicle carrying the man, a woman, and  
two children was hit by a car that had been travelling west along the same road. A police spokeswoman said the man  
died at the scene. The driver and two children have been taken to hospital with minor injuries. She said police were  
investigating.Q: Joomla! Installation not working When I try to install Joomla! with the "new Install method" the  
installer starts and goes to the first page of the wizard, but there are some options missing (like the language  
selection). The installer did not give me any errors. I am not familiar with Joomla! and this is the first time I am  
installing it. I would appreciate if you could help me. A: It seems that you have chosen the wrong installation method.  
You can read the installation steps from this article and follow them carefully. The article starts with the "old Install  
method" and has some tips about "new Install method" to try first. If you have some problems, you can always ask  
here :) Q: SQL Server Conditional COUNT I want to perform a conditional count, based on the results of a previous  
query (let's call it QueryA) If the results of QueryA is greater than or equal to 1, then a count should be performed  
for the records returned. If the results of QueryA is less than 1, then the count should be performed on the total  
number of records returned. Here is the query I have so far... SELECT COUNT(\*) 2d92ce491b
