When the first center consoles would introduce themselves, they were being new and polished for their segment and could only promise that they'll get better. This was the case with the Chrysler's "launch" of the Chrysler 300 last year. In the meantime, we've had time to scrutinize the new center console, and the 300C, to see how it has changed in the years after its introduction. Chrysler 300C The 300C was built from Chrysler's new platform, the Dodge Dart, which they had already created for the Dodge Dart Shooting Brake. It's an independent car but with the technology and mechanics of the Fiat 500. In essence, it's a near-luxury compact car that was built for the United States market. Hence, it was built for the segment and its specs. That meant, no V8s or Quad 4s. It was sold with a small-displacement V6 that made a good power but not a great one. With the V6, there was only one cylinder, so you really got the 3.6/305 horsepower. The interior was good for the time. The doors were a bit hard to open, but that's what Chrysler did. There's a soft touch on the door panel, but nothing too fancy. Chrysler 300C Chrysler 300C The most interesting thing about the 300C is the information that still comes from 82138339de
