In only a few days, Earth's governments will gather for a UN-sponsored climate summit at the Mont Pelerin Society in Switzerland. The upcoming conference will give the body's executive secretary, António Guterres, a chance to present the development community with a "Roadmap for Climate Action," a report which details what

governments can do to reverse global warming. It's a tough task. Though there is a growing consensus that some sort of deal must be made, the results of previous UN summits have been limited, and have often led to little more than political posturing. Still, Guterres' report will present five key initiatives that, if carried out in time, could dramatically decrease emissions and avert global warming, while also creating an international

business boom and making the climate change threat more manageable. We were able to put together a briefing summarizing Guterres' recommendations, but before getting to the good stuff, let's begin with a summary of the report's recommendations and a look at what the future may hold. A stark warning After years of negotiation,

What's New In?

Facebook Avatar Maker is a software tool, built with Adobe AIR, whose purpose is to help people create Facebook avatars and save them to the HDD for later upload, with a minimum amount of effort. Swift setup and

clean interface The installation process you are required to go through is a piece of cake, as it does not come with any unpleasant surprises and it is over in a jiffy. The interface you are greeted by encompasses a clear-cut and modern appearance, as it is comprised of a few buttons and a pane in which to view the uploaded photo. Although Help contents are not included, both power and novice users can still find their way around Facebook

Avatar Maker with great ease, due to its overall simplicity. Tweak configurations and save results to the HDD This application enables you to upload JPG, GIF and PNG picture formats, with the help on the integrated file browser. Moreover, it contains a pane with the exact measurements of a Facebook avatar, so that you can easily create your own, without actually needing to launch the website. Aside from that, you

should know it is possible to move the uploaded picture within the frames with the help of your mouse, while you can also zoom in and out with the built-in buttons. The resulted image is going to have rounded corners, and you can save it to the hard drive using any extension. Bottom line To conclude, Facebook Avatar Maker is a pretty efficient piece of software when it comes to creating a Facebook avatar offline. The interface is dedicated

to all users, the response time is good, and the amount of resources required are insignificant. We did not pick up on any errors, crashes or bugs in our tests. 0 comments Register Login Forgot your password? Several studies have demonstrated a protective role of oxidized low-density lipoprotein (LDL) in the etiopathogenesis of atherosclerosis. Statins are known to lower cholesterol by inhibiting 3-hydroxy-3-methylglutaryl coenzyme A (HMG-CoA) reductase and are thus efficient anti-atherosclerotic agents. As

these statins are oxidized by LDL, we assessed whether the antioxidant effect of simvastatin contributes to its LDL-lowering effect. We evaluated whether the antioxidant effect of simvastatin is correlated with its cholesterol-lowering effect and whether it is influenced by high-density lipoprotein. We administered simvastatin (4.5 mg/kg per day, for 12 weeks) and beta-sitoster
