Portable WordNet Browser Crack + Serial Number Full Torrent Free Download

App ChangeLog v2.2.2: – Fix an issue with search engines not working in the Italian version. v2.2.1: – Fix an issue with the tool not being started when closing the application. v2.2.0: – Fixed an issue with opening and adding more than one dictionary at once. – Updated translations. – Various bug fixes and improvements. App Screens 1/5 (10 Votes) Portable WordNet Browser is an educational and easy-to-use program designed to offer an efficient way to search and study the means of a word you don't know. It features parts of speech filter, synonyms, antonyms, derivates, and hyponyms. Easily look up for phrases using an intuitive layout The app comes as a small executable file that doesn't require any prior setup, so it can be dropped on external drives and directly launched on any computers. Due to the fact it's portable, it doesn't create entries in the registry, nor leaves traces after deletion. It's wrapped in a plain and outdated interface with a search bar and a result console. The menu is simple and lightweight, accessible even for novices. The process is not complicated, all you need to do is type in the desired word and hit enter. Enrich your terminology by studying new uses for the searched words Almost instantly, the tool displays all the similar nouns, adjectives, adverbs or verbs it can find. The inputted term is highlighted as default with red, however, the color may vary from a computer to another. Sadly, the other elements are displayed with a normal font and tint, making it hard to read. The tool provides multiple definitions and examples, to easily understand each term. You can quickly switch between various parts of speech and categories, by simply clicking on them. The content can be copied and pasted into documents for further use. What's more, you are able to view the search history and access words directly from there. From the options, the app lets you disable the help, show descriptive gloss, wrap the lines for easy reading, as well as set the font, the maximum history length, and advanced settings. A few last words Taking everything into consideration, Portable Wordnet Browser is a useful and user-friendly program designed to offer a simple yet efficient method to search for particular terms you don't have knowledge of, and

What's New in the Portable WordNet Browser?

Portable WordNet Browser is a powerful search tool designed to help individuals look up for words or key phrases that they don't know how to use the right way. It finds synonyms, hypernyms, hyponyms, antonyms and derivates for a certain term using the Wordnet database. This software helps find the appropriate answer for any question by using the dictionary as a guide. What is new in this release: Major changes: - User interface is redesigned - Support for both English and French languages - Check if a word or phrase is a noun, verb, adjective or adverb - Show the definition of the word from the dictionary - Import text from clipboard - Fix some bugs - Updated Wordnet to Version 3.1 *** What is new in this release: - User interface is redesigned - Support for both English and French languages - Check if a word or phrase is a noun, verb, adjective or adverb - Show the definition of the word from the dictionary - Import text from clipboard - Fix some bugs - Updated Wordnet to Version 3.1 Known issues: - Fix for Desktop shortcut (keep your shortcut on your desktop, copy shortcut to desktop folder) *** Universal links: An issue has been discovered during testing that causes the software to crash after opening your USB drive or external hard drive *** Installation: This is a zip file containing the wordnet.dll file. Just unzip it, and drag and drop the wordnet.dll file to the program's data folder which is usually located in Program Files (x86). *** Run the app: 1. Go to Start menu, and select All Programs -> Portable Wordnet Browser -> Portable Wordnet Browser. 2. Click Portable Wordnet Browser icon on the desktop, and press the right mouse button. 3. From the left sidebar menu select "Open folder and select the Portable Wordnet Browser.exe file", then select Open. 4. Select the wordnet.dll file and click Open. 5. The app will be launched, and all the options are now available. 6. When you are ready, press Enter or click on the right mouse button on the search field. 7. The program will start searching for similar words and definitions on the basis of the input word. 8. As soon as the desired word is found, a tooltip icon
