## Portable Sound Valley Crack+ [Win/Mac] 2022 [New]

Whether you're at home, on the road or working from a computer kiosk, the purpose of this application is to provide you with soothing sounds of nature, just the way they sound in nature. The application is available as a portable version and it can be launched without requiring installation from a removable drive. It lets you play a series of nature sounds selected by a playlist creator and it works automatically. When you're listening to the sounds, your computer can be paused and you can adjust the volume level. Also, Portable Sound Valley can play the role of a pause reminder, notifying you when it's time to take a break from work, so that your eyes don't get tired. It allows you to set the working time interval and configure the break periodicity and duration according to your preferences. In addition to this, it features power task scheduling functionality, which enables you to instruct the application to send shutdown or log off commands to the computer. This comes in handy when you want to listen to beautiful nature sounds before going to sleep or taking a nap during the day. After years of dedication, we have released Sound Valley, the first music player to play back a large number of sounds from nature. With Sound Valley you can listen to rain, thunderstorms, waves, and much more. For this, you will need to download and install VST plugins (which are free) from our website. Sound Valley does not contain any sounds of nature. In addition to the Playlist, we have also included the possibility to add your own music files and select the music by scene. In Sound Valley you will have the option to run the application in the background and stop it when you are working. If you want, you can configure the application so that it sends shutdown or log off commands to your computer. FEATURES: - Play and stop music in infinite loop. - Auto change scene when it's time to listen to a new one. - Play music and change scene by clicking on the small green button in the bottom right corner. - Set duration and duration of each scene. - Playlist size is limited to 300 files. - Option to play music without ads. - All music in MP3 and WAV formats. - In MP3 format, we provide you with the ability to edit the ID3 tag so that you can configure your music based on the place and time you are travelling. - We have included beautiful music from free VST plugins of the best sound designers in the world. - You can select a directory where you want to store your music files. - We have included a break reminder which allows you to pause your work and listen to beautiful sounds of nature. - You can set the time interval for which you want the reminder to appear. - We have also included an option to turn off the notification if you don't want it to disturb you. - Choose between FM radio or the use of a station database. - Change the volume level and activate shuffling mode. - The application supports power task scheduling functionality. - Portable version of the application.
