With the PNG support, Chrome will display a transparent icon in the

address bar, as well as in the bookmarks. Transparency is added in the same way as it is implemented for all supported sites: the URL is encoded in the transparency pattern (described in [CSS3: Images. More](#)). At the moment the only supported value for the data argument is `color=rgba(x,x,x,0.5)` where the x values are the red, green and blue components of the CSS color as described in [CSS2: Colors. More](#). Note: Currently
