I found this a bit tricky. Soft4Boost backup software is a comprehensive. among them are backup creation, restoration, file comparison and error.. For anyone who has tried to copy data from DVD to hard disc.,Neuroblastoma presenting as a hepatic cell carcinoma in a child. Neuroblastoma (NB) is the most common extracranial solid tumor in childhood, but primary hepatic NB is an extremely rare occurrence. A 4-year-old boy presented with a large, mostly cystic, nonfunctioning liver mass and an elevated CA-125 level. Imaging showed a multicystic mass with a mural nodule in the left hepatic lobe. There was no history of multiple prior lumbar mass biopsies or abdominal surgery. Biopsy of the tumor revealed NB. The patient's tumor cells expressed CD57, CD56, and synaptophysin, and did not express myelin basic protein and glial fibrillary acidic protein. The cells were negative for bcl-2 and c-kit. The neoplastic cells reacted positively for vimentin. The patient had completed first-line treatment but had recurrent disease 6 months after stopping chemotherapy. The child died 12 months after the initial diagnosis. The initial diagnosis was misclassified as a liver cell carcinoma. This is the first reported case of a 4-year-old child with hepatic NB and associated CA-125 elevation.Q: Adding search to CRM 2011 Contact What is the correct name of this tab when i search a CRM 2011 contact - Accountant? I'm trying to add it to a form but I'm getting an error - Entity Reference/Entity Reference Bundle: "Unable to find Bundle with id: null" A: The other way would be to add a lookup to contact based on Accountant ID. You can do this by first going to List Views and selecting Accountant Name, then going to the Contacts tab. You can do the same thing by using the Accountant Name (remember, you must have "Create" access to display the link below the name). The search box will then appear for you once you have made your selection. Also, note that with the lookup to Accountant, the accountant name appears in this tab, while the form's Accountant field appears in the Contacts tab. PublicID PublicID is a technology which allows web users to register their domain
