This is a strong, robust and easy-to-use icon maker with a steep learning curve. IconLover gives the user the opportunity to create any size and color icon in seconds. Version 1.0.0 - 2019-12-18 New Features: (not available yet) Bug Fixes: (not available yet) The IconLover is a strong, robust and easy-to-use icon maker with a steep learning curve. With IconLover, you have the opportunity to create any size and color icon in seconds. You will have to master the basics of drawing. The program enables you to create icons from scratch or by using an image file, extract all icons from your computer or download them from the Internet. You can also extract an icon from an existing image file or clipboard item. IconLover can also be used for creating monochrome icons. It supports various file types, including ANI, ICO, ICL, RSL and ICC. When building a fresh icon, you can specify its size, coloring mode and conversion mode, as well as pack it for Windows Vista. Settings can be saved as default. The program is feature-rich. For example, you can draw a line or create rounded corners. You can also select a gradient for the color filling, flip or roll the picture, as well as make image adjustments (e.g. opacity, brightness, hue) and apply effects (e.g. replace color, drop shadow, merge with the background color). You can add text and draw a line. You can also select a color or gradient for filling the area and adjust the transparency of the area. You can create a solid or dashed line as well as delete the line. When creating icons, you can connect a gradient to the line. You can also resize the line. Furthermore, you can flip or roll the picture. You can also convert the image into a drop shadow effect. You can also lock the image. The program makes it easy to work with all icon formats. The shortcut keys are intuitive, and the preview is clear. The program's settings can be easily modified. Furthermore, it's pretty fast and requires little system memory. Used icons are created in accordance with a standard set of guidelines and can therefore easily be integrated into applications. Due to their thorough and clear documentation, IconLover icons are ideal for use on website and in user interfaces. ■ Icon: 16x
