I want to recommend you one of the best free proxy lists. SO, I just wanted to share one of the best free proxy list with you guys that contains more than 10,000 free proxies and make your internet surfing easy. I am not going to talk about the benefits of using free proxies. The best benefit of using a free proxy is that your identity will not be protected and you are not going to get caught by any government authority. The free proxies are more effective than the paid proxies. Most of the paid proxy is black listed. That means if you are using a black listed proxy you will get errors while browsing websites. In which most of the paid proxy is blocked. So, that is why using a free proxy is better. Free proxy are reliable and dependable. Most of the paid proxies are coming from a small country where your IP address is not blacklisted and are not a safe place for you. Also, free proxies are not a safe place for you. There is no way to get your identity stolen. 1. IP address 2. Port 3. Duration 4. Other information I hope you all know that IP address of your computer is not safe. Your IP address is not confidential. Anyone can see your IP address. That means hacker can get the IP address of your computer. So, you should never share your IP address with anyone. So, the next question arises if it is possible to use a proxy that doesn't expose your IP address. The answer is yes. Today we have a proxy that completely hides your IP address. If you are using a proxy that hides your IP address, then you are giving your IP address to the proxy rather than your computer. So, all the hacker needs to know is what website or device are you browsing. The proxy servers are sending all the information about you to the website in which you are browsing. Here in this article, you will find a best proxy list which has more than 10,000 free proxies. I want to show you one of the best free proxy list with a simple step by step method. What is a proxy list The proxy list is a complete list of all the working proxies
