Joker Playlist This movie is very interesting. I have never seen a film in which villain is a clown (of course, Joker is the only exception). I hope this movie will make a big hit. Watch Joker Full Movie | Download Jokers | Free Movies Making a film like Joker is a big challenge. 1.Shirish Kunder is a great director. He is so kind and if I am not wrong, he had done few films with my friends in serial. I was reading this link too. I remember he was shooting some film with my friend Aaditya at some location in Rameshwaram. He has also done films like Simran and Gangs of Wasseypur with my other friends. So, this man is a good director and I am sure that he will give justice to Joker. 2.Shirish Kunder started out as an actor and he started out as a comedian. He did comedy skits in "Punjab Kesari" (which my friend Ankur have seen and has written about) and he got good reviews for them. I am sure his comedy instincts will help him a lot and I am sure this film will not disappoint. 3.It is a crime-thriller/comedy. I think it is not as serious as Zindagi Na Milegi Dobara was. Anyway, I will not give a spoiler in this post because I do not want to spoil the movie for anyone else. So, I will leave it to your own imagination. 4.Another reason why the movie is going to make it huge is that it has a very big star cast. I mean this is one of the few films which have a star cast with such high profiles. And, to top it all, it has the greatest villain ever in Indian cinema. 5.The movie is set in a dystopian future. No, this is not referring to dystopian fiction. This is a dystopian society that we are going to see in this movie. 6.I heard that the movie will be available on Netflix later this year. 7.To tell you the truth I am not even going to give you many reasons. I guess you are going to love the movie and I am just going to provide this link for you to download Joker. 8.This is the official site for the film. 9.If you have never watched Kunder's previous directorial effort Simran, you can watch it first. The two are interconnected
