Description:Re: Tiny biplanes start up p.k. I know Tom has said a bit about some of the new shooters since the last time you've posted a pic, but I see someone out here with a microreplica that looks an awful lot like the final Version of the ZW-3... Now, I've been holding off on making any judgement on the little pix because they're *so* small... sometimes, it's so hard to

tell. Seeing this, though, gave me pause... Tiny replicas seem to always
