## Facturacion Crack Download

Facturacion is a web-based invoicing and CRM system for small and medium sized businesses to manage their invoices, customers, payments, and sales. Facturacion includes the features found in many competitors systems, such as Customer Management, Billing, Inventory, Accounting, Sales, and Reporting. It also includes some innovative features, such as Salesforce integration, Time and Expense Management, and Customer Database. The app is ideal for small

---

to medium sized businesses because you can manage all aspects of your sales, without requiring every employee to learn everything Facturacion offers. Facturacion in the Box: Out of the Box: 1. Customer Management: Customers can be viewed from your customers list or simply managed as a separate record. After your contact information is entered, select the customer from the customer list to begin adding their information. 2. Billing: Add a customer to the billing list and adjust their payment terms or credit account. A credit account gives them 60-days

---

to make a payment. Billing terms can be as short as one day or as long as one year and the payment amount can be as low as \$0.01 to \$10,000.00. 3. Inventory: Add items to your company inventory list for easy calculations of items on your sales. 4. Sales: Record your sales, inventory, product info, and payment info with ease. Add notes, custom fields, and link items to sales. Add sales leads and allow staff to access the same data as you are. 5. Reporting: Project your sales, invoice, cash flow, productivity, and much more into PDF reports. 6. Financials: View your

---

income and expenses in current and project year. 7. Inventory: Enter your product quantity, unit price, and amount to inventory. Simply select the item, add units, and click to add to your inventory. You can print a barcode sticker that will be linked with your invoice. 8. Sales: Add leads, add your price, add the sales to the sales list. You can assign a lead to an agent, or create a new agent for the lead. 10. Time & Expense: Easily input your employee's time and add a description. You can link the description to your contact list for quick customer references. 11.

---

Export: Export as CSV and PDF formats. 1. Customer Management: Customers can be viewed from your customers list or simply managed as a separate record.

The facturacion application offers to the user a full package of accounting functions and tools to set up the invoices and bills; what works, in fact, is done entirely through the facturacion application Featured in User reviews 0 App Details

Facturacion is free and available for download from the App Store.

Description Facturacion is an easy-to-use yet powerful invoice and general business management application.

Facturacion Description: The facturacion application offers to the

---

user a full package of accounting functions and tools to set up the invoices and bills; what works, in fact, is done entirely through the facturacion application. The facturacion application has an interface similar to that of a calculator, with the keystrokes indicating the exact positions of the various items of the invoice (as well as the general registers. All about the supplier, product, list of items, company name, individual prices, total amount, etc). There are two views in facturacion, the individual item, which is used for the invoice. In

---

this view, all aspects and functions of the item are available, there are 7 different registers, three for the supplier, five for the company name, and one for the product for each item of the invoice; all the prices are set with 3 digits; there are two functions for the list of items and one for the legal text. The individual item is available as a double line, as well as as a line to line, while the property of the item allows to access the notes, invoices, descriptions and service descriptions. There is a simple but powerful "delete" button for the items to be deleted, or for the settings to be

---

changed. As well as the invoice registration as a single line, there is the invoice registration as a double line; all settings and modifications are carried out through this interface. The add supplier, delete supplier, modify supplier, delete product, modify product, add supplier invoice link, delete supplier invoice link, modify invoice link, delete invoice link, modify invoice link, delete individual invoice link, modify item, modify item price, add item, delete item, modify item quantity, and delete item quantity, modify invoice payment, modify invoices and bills, delete

---

invoice, and delete invoice and bills, are performed on the invoice as well as on the invoice as a single line. The invoice registration as a double line allows all modifications to be done; in

What's New in the?

Facturacion is a small and lightweight invoicing and general accounting solution, but packs a lot of power under the hood. It has features for invoicing, reporting and payments, accounts management, accrual and time tracking and is fully managed by backend. It has free/personal and

---

business version, with enterprise and add-on modules. Features: \*

Invoicing: - Basic invoicing: just entered the amounts, supported by reports for follow up - Unlimited repeatable invoices - Support for discount invoices, for example on the first or last invoice, there is a discount percentage calculated \* Paying: - Bill and customer can be notified of the bill - Paid invoices can be monitored, with the current balance with the balance of a customer \* Reports: - View the current and previous invoices and the time it was invoiced for - Automatically generated reports

---

in HTML or PDF or CSV for sales, monthly and yearly invoices. - See report generator or print just a single report \* Accounts: - Built-in accounts or entering invoices with several accounts and the balance for each account, from sales to services - Quickly add multiple accounts \* Invoice Notes: - Simple notes for the invoices \* Sub-accounts: - Sub-accounts for invoices - for services; services can be invoiced with a different payment plan - Sub-accounts for accounts, from sales to services - Supported by Reports - Support for Discount Invoices -

---

Support for multiple sales tax rates -  
Support for sales tax calculation,  
based on the rates - Supports VAT  
and HST and its history - Supports
