

This God war 3 version model is specially designed for ppsspp emulator. You can download the game from the developer's website. Flash technology is used. Detailed description of God war model The gameplay of God war is based on the hero attacking each other with the ability to hit the enemy with items of clothing and split them with a sledgehammer or any other object, thereby speeding up the process of destruction by 10-15%. The game also contains five types of bets that players make depending on the invested finances: for bonuses, for exclusive items, for extra lives, for increasing the characteristics of the hero, for increasing the scale of the map and for the presence of artifacts in them. At the time of this writing, we have 7 types of bets in the game, which change every two hours. The player has the right to interrupt the game at any time by opening the God war menu. The account card is opened by clicking on the table name, bottom left. The game God war has a large number of various bonuses. Each player can purchase special bonuses: special heroes, rare monsters, special items, as well as unique items that only selected characters receive. These items are purchased with real money or in a comic shop (usually RMB). In addition, players have the opportunity to earn gold by completing tasks, participating in various games, buying items, participating in lotteries and slot machines. In order to make bets in God war more profitable and increase their number, each team has its own so-called lottery, where you can purchase various items: scanner monsters, unique items, etc. For winning this lottery, players can get unique items. Each item is an important milestone on the way to victory in the game. Yes, items can be useless, but their number affects the outcome of the game. To get most items, you need to collect items on the table of purchase cards, and then put them into decks of artifacts that can be bought in the comic company's store itself or on the shopping streets. All items available in the store are unique, and whoever collects the items from the regular table first will receive them. The most interesting items can be found on the streets of the city. These local points of interest unlock new cards and their other items, and give you the opportunity to earn extra cash. Each card sells for one yuan and increases the cost of card items by 10%.The Viking map has more items to find than the Safe map, but its maps have one major drawback
