## What's New in the?

WpfDock is a handy, easy to use Dock designed to enhance your desktop and offer you a quick access to your favorite applications. In addition to providing a new way to organize your information and your personal life, it provides you with all the features which a good dock should have, like speed, control, simplicity and style. Multiple Languages and Multimedia Two simple ways to help you understand the user interface Once you start using WpfDock, all the programs will be easy to install. To add a program to your dock, drag and drop it in a specific location. You can put it on top or at the bottom of the dock. You can also open any application from the dock by tapping on it or pressing a shortcut. The most important thing is that you can have as many instances of the same program open as you want. Manage your programs efficiently WpfDock provides you with the best way to manage your programs. You can open the dock to display all the running applications. Then, you can use the programs and even close them as many times as you want. You can also go back to the applications that are not running or have opened by a specific program. You can also attach additional windows of the same application to the dock. Enjoy the simplicity of control You are able to easily move the dock to another location by just tapping it or hold it. You can also click on any application to close it and go back to your favorite one. You can also lock your dock from moving, in case you want to use it in a specific place or need to protect it from getting in your way. Main features Extend the dock You can also add a program to the dock by holding it from the application list. In addition, you can easily go back to your favorite one just by tapping it. Create a group of programs You can easily organize the dock by creating a group of its related programs. In each of these groups you can add as many programs as you want. Search your applications You can search your programs by using simple terms. Customize the look You can customize the dock to match your personal style and taste. Also, you can change the size and color of every component of the dock. Easy to use You can easily access to the WpfDock program by tapping it or by pressing
