GIMP GIMP is the open source Gimp image manipulation program. It's covered in Book I Chapter, and is growing and changing all the time. It's a fantastic program, and the only reason I recommend Photoshop to people is because GIMP is free. If you're a student, you can find GIMP for free at www.gimp.org. GIMP is also free to use by anyone who has purchased a subscription.

I don't see the point in it. Feedbacks welcome. ----- DanBC The HN formatting doesn't cope well with these excerpts. Also, no links to the original. --- dbaupp Would probably be better if there was an aside tag for the excerpt (in this case, a blockquote). --- dredmorbius Agreed. There's also opportunity for some notes/links to the original blog, as sometimes I _do_ click through to read the original. (I learned a lot from your hacking culture site earlier this year. Great content, and the most regular submission I've ever had.) ----- ekianjo What kind of hacking are we talking about here? Ethical hacker or "bad" h
