every second, is there a way i can rotate this view less often i am using below code for rotating a view

```

val v = findViewById(R.id.flip_container) as View if
    (v != null) { v.setVisibility(View.GONE)
    v.setVisibility(View.VISIBLE) v.rotationY = 360 if
    (v.rotationY == 360) { v.rotationY = 0 } }

```

A: To rotate the view always I'd use ValueAnimator to rotate a View, with ValueAnimator you can specify the AnimationListener to return true on animation end, set the duration accordingly and the ImageView to be the container that will be rotated (it's preferred to use ViewGroup that will deal with it's view rotation for you). Here is an example code, in order to not have the ViewGroup resource it will be kept as constant, you can easily use your own ViewGroup

```

private View mView;
@Override public void onCreate(Bundle savedInstanceState) {
    super.onCreate(savedInstanceState);
    setContentView(R.layout.main); mView = (View) findViewById(R.id.image_view);
}
public void rotate(int angle) {
    final RotateAnimation animation = new RotateAnimation( 0, 1cddb36666d

```
