Samsung, for the first time, is able to sell a flagship phone that has an ultra-high-quality display, fast internal and external hardware, a speedy SoC, tons of RAM, a great camera, and all the standard LTE connectivity options. The company is also releasing 64 GB, 128 GB, 256 GB, and 512 GB models with the Galaxy Note 10. For now, Android purists should stay clear of the Samsung Note line. On the other hand, the value of a Samsung Galaxy Note device might be enough to tempt most users to trade up for a more expensive phone. Samsung will be testing the durability of the Note 10 in extreme conditions by shattering the device a few times by dropping it on concrete. Samsung Galaxy Note
