ADATA S596 Turbo Firmware Update Tool is a handy application that was created in order to provide you with a simple means of updating the firmware of your SSD. ADATA S596 Turbo Firmware Update Tool is designed to run under DOS so you can use the Windows command-line utility to deploy and use it. What's New: Summary: WVU is an excuse. I'll never understand the people that will still come to Morgantown, even if it's not a football game. This year was a rude awakening. Coach is an idiot. There is no atmosphere. Average is not average. Offense is bad. Athletic director is a joke. Football team is a joke. I don't see how anyone can continue to come here. It's better just to drive to Colorado, Kansas, or even Dallas if they are better. I'd rather go to Denver. WVU is an excuse. I'll never understand the people that will still come to Morgantown, even if it's not a football game. This year was a rude awakening. Coach is an idiot. There is no atmosphere. Average is not average. Offense is bad. Athletic director is a joke. Football team is a joke. I don't see how anyone can continue to come here. It's better just to drive to Colorado, Kansas, or even Dallas if they are better. I'd rather go to Denver. Denver has their own little world over there. But I wouldn't move to that football mecca. I said WVU was an excuse. I meant you could say the same for most of the places on this list, but I'm not getting into the semantics of what you meant by "Morgantown." IMO all the teams on this list are quite worthless, with the exception of Iowa and WVU. Willingham was a really good coach when he was coaching in the NFL. But he came back home and was a bust, just like he was in college. When the Hawkeyes went to the Big 12, they had to clear out a lot of players, and a lot of their tradition. I remember watching a very old Big Ten Championship game in the late 60's or early 70's. It was Michigan, Michigan, Michigan. I've never been to Michigan, but I have a great respect for the Wolverines. So I don't think Iowa is an

### **What's New In?**

First of all you need to download the tool, then you should extract the archive in a folder on your Hard Disk. In the extracted folder you will have two files, ADATA\_S596\_Turbo\_firmware\_update\_1.0.0.25.zip (or 2.0.0.25) and the README.txt file. Now, it's time to install the tool, in fact there are two ways to go about doing this: 1) On the beginning of the README.txt you will find the software installation instructions. 2) You should do following steps: 1) Launch the tool 2) Click on the "Install This Tool" button 3) The application will search for the SSD. 4) Wait a few moments while the application manages to install the updates 5) When the installation is done you should press the "Finish" button. Now that the tool is installed you should download and extract the firmware update file. In this tutorial we're going to assume the installation of the 1.0.0.25 firmware update. You should download the firmware update file from one of the following links: 1) Source: 2) Source: After the downloading is over you should open a file manager, we're going to assume you're using Windows Explorer, and paste the file to the folder. If you have 2.0.0.25 the file should be named: ADATA\_S596\_Turboot\_firmware\_update\_1.0.0.25.zip Now it's time to extract the firmware update so we're going to launch the Extrator tool by double-clicking on the file. When the application starts you should press the "Extract Files" button. The tool will extract the files from the flash memory of your SSD. Extracted files will be inside the folder. Now it's time to run the application. To do so we're going to double-click on the ADATA\_S596\_Turboot\_firmware\_update\_1.0.0.25.exe file inside the extracted folder. If everything went correct the application will

---

## System Requirements For ADATA S596 Turbo Firmware Update Tool:

1. Windows XP (SP3) or newer operating system. 2. DirectX 9.0 or newer 3. 1.5 GHz or faster processor 4. 128MB graphics card or better 5. 16MB free VRAM 6. 3GB free hard disk space 7. 1024x768 or higher resolution monitor 8. Keyboard, mouse and speakers 9. Internet connection  
Supported 3D Video Cards: NVIDIA GeForce 7/8 Series AMD ATI HD4800 series PCI
