Show HN: Tag, something like YouTube's tags (easily search tags & sort by popularity) - digamber\_kamat I have implemented a tag cloud like feature. Users can sort tags by popularity i.e., most commonly used tags will be on top. Also users can tag in the same way as they tag on YouTube. Tags are stored in a simple database table: id (name)(category)(popularity)usertimestamptags (user,timestamp,tag1,tag2,tag3,tag4,tag5...) ===== sirkris Great idea. I will give it a try! I have thought about something very similar for a long time, but never really thought about a way of storing tags (in fact, I had never heard of tags until now). Anyway, I will give it a try. Thanks a lot! ----- kayhi Very cool, the tag cloud clearly shows what I am looking for. I signed up to try it out. ----- FrBalzac Very useful. I am going to try it for my next project. Affective symptoms and risky sexual behavior among adolescents: longitudinal evidence. This study examined how several problematic adolescent behaviors predict later risky sexual behavior. Specifically, the study examined how problem behaviors -- especially drug use and mental health problems -- predict subsequent number of sexual partners and number of sex partners with casual partners. Young male and female subjects in grade 7 and 9 completed self-reports in two waves (Time 1 = 1991, Time 2 = 1993) of the National Youth Survey. Substance use and sexual risk behaviors were assessed in both waves. Three predictor variables were examined: Wave 1 drug use, Wave 1 and Wave 2 antisocial behavior, and Wave 2 and Wave 3 substance use problems. Sex partners and sexual partners with casual partners were reported in the second and third waves of the study. Subjects ranged from 12 to 17 years old at Time 1 (M = 15.50, SD = 1.66) and 18 to 25 years old at Time 2 (M = 20.94, SD = 1.94). Hollywood (Dordogne) The Hollywood, also known as the Hollywood cinema and as the Thiviers cinema, is a former cinema located in the commune of Dordogne in the Loire Valley, France, just south of the city of Saint-Étienne. History The cinema was designed by American architect Paul Philippe Cret for architect Henry Newman (future designer of La Samaritaine in Paris). The cinema opened on February 24, 1934 and was the first cinema to open in the region. It is also the building in which James Dean was killed on September 30, 1955, when he lost control of his car and hit a tree. The accident was caught on film by photographer Bill Fraker who documented the filming of the film Giant and subsequently gave the footage to Universal Studios who used it in the film's final sequence. The building was sold to CIF and was subsequently sold to Centre éducation, sensibilité, culture et tradition (C.E.S.T.), which owns the building in which the Subutex cinema in the commune of Dordogne is located. A theater company is located in the neighboring former Thiviers railway station, an old railway station that is now a hotel.
