## ResCarta Tools Crack +

SiteMeter Web Analytics Software provides reports of web traffic in real time, telling you how your visitors engage with your web pages. This traffic reporting software tracks visits by IP addresses, Internet browsers, as well as visits from social media sites such as Facebook, Twitter and Google+ SiteMeter Web Analytics Software can be run on your Windows, Mac or Linux PC. The software allows you to display stats via an amazing interactive map, which lets you spot your visitors in real-time (real-time e-tailing). Additional Features: SiteMeter is a non-intrusive real-time web tracking tool. This means it simply adds itself to an existing page on your web site. SiteMeter will then appear as a new page, to your users, as a popup window, or a sidebar. It is literally a free mini-version of SiteMeter. You install the software on your PC, and make a one-time payment to a SiteMeter representative. In return, you get a license key with which you can use SiteMeter for 1 year. Licenses can be activated by e-mail or phone; a license key is then generated. Advanced Metrics: You can see what users do on your site, even if they don't reach the pages you want to track (follow-up visits). SiteMeter reports the total number of visits, the number of page visits, as well as the number of visits to each of your web pages. You can gather data from each visitor: the country, the browser type, OS, screen size, operating system and IP address. Detailed reports: The reports' beautiful format and functional design leave nothing to be desired. The detailed reports are extremely easy to understand. You can gain all necessary information by simply looking at the graphs and charts; you won't need any other data sources to understand the results. Real-time traffic reports: SiteMeter Web Analytics Software uses IP addresses, Internet browsers, social media activity, and more to identify and count visitors to your web pages. The information is then provided in a clear and visually engaging format. Summary SiteMeter Web Analytics Software is a web monitoring tool that detects traffic on a web page, and reports the results in real-time. The free version of the software allows you to easily monitor up to 5 web pages. There's a one-time registration fee of just \$19.99. Site
