This "HyperMotion" is also featured in the gameplay of "Be A Pro" mode, where users can create a male or female FA-20 player, and play in a variety of match types ranging from free kicks to dribbling, tackling, and defending. Key Features First-person, true-to-life movement The FIFA franchise is renowned for delivering the most immersive, realistic football experience in the market. Now, on Wii U™, FIFA brings its virtual football skills into the living room with the addition of "HyperMotion Technology," an entirely new suite of motion capture technology that provides first-person, true-to-life movement in the game - allowing players to control the world's best on-screen soccer stars. High-paced action on the field Play FIFA on the Wii U tablet controller to experience a real sense of being right there on the pitch with everyone on your favorite team. Whether you're heading towards the goal or trying to play a through ball, the addition of "HyperMotion" technology will provide the most accurate, realistic movement in the world's greatest football video game franchise. World-class teams Not only do you get to create your own male or female FA-20 football star and play alongside some of the greatest players of all time, but the game also gives you the opportunity to compete in a variety of game modes across multiple teams with up to 30 players per match. Whether you're going for a lifetime record in a "Be A Pro" season, or you prefer to take on your friends in a variety of online modes, FIFA on Wii U provides a truly global, multiplayer experience that will delight players from the UK, US and around the world.Q: HLSL failed to generate shader code due to an error in the shader (Uniform variable "vCoord" declared with the keyword "in" but ignored by the preprocessor) I have this c# command line application that reads some media and then uses the PIX shader to create a rasteriser for each frame and transform it into an effect. This seems like a pretty common task and I can't find a good quick answer. I'm getting an error from the HLSL compiler for the following shader. static class PIXShader { public const int TargetId = Shader.PropertyToInt("_TargetId"); public const string Ver

Features Key:

- Authentic 22-year legacy featuring the latest innovations in video game technology on an all new next-generation PlayStation 4, Playstation 3, Xbox One
- A new ball takes to the pitch on a redesigned ball physics system, fully integrated into gameplay. Reduced time between decisions (for forwards) and improved accuracy across the pitch will deliver breakthrough speed of play, with the ball in your hands from a tackle through to a goal
- Incredible detail and authenticity. FIFA 22 features the same, living, breathing world as the latest editions of Madden and NHL. Use high-resolution cosmetic skin and cloth detail, ambient weather effects, crowd sounds, crowds, overall visual improvements, and of course, the all-new next-gen Morpheus camera; which will be a marvel for players and Virtual Reality headset owners alike
- FIFA 22 introduces 'HyperMotion Technology,' which uses motion capture data from the 22 real-life players playing a complete high-intensity football match in motion capture suits. The data collected from player movements, tackles, aerial duels and on-ball actions is used to power FIFA 22 gameplay.
- FIFA 22 includes tools to create your own player, as well as control lineups that you can pass down to your team
- Career Mode - LIVE out your dreams as both a manager and a player in FIFA 22
- Extra Diverse Player Tasks & New Meaningful Player Tasks - E.g. tackling
- All-New Motion Capture Technology - more precise than ever, using the new "HyperMotion" real-life player movements captured by the amazing Advanced Camera System (ACS) technology
- Ultimate Team Mode - be a pro and lead your Ultimate Team to the top. Unlock new players by owning them, form your dream squad and use them to dominate live opposition
- Just like the First Person Shooter's The Battlefield, try and maintain your position with your friends on the pitch. Break free from traditional gameplay for a chance to connect to your friends and compete with friends all around the world
- The Career Mode - Put that Manager hat on and create your favorite football squad by uploading your Ultimate Team
- Career Mode your Path to Glory - Spend all your hard-earned coins upgrading
