FIFA is the world’s leading sports videogame franchise, available on the PLAYSTATION®3, PlayStation®2, Xbox and PC. With over 145 million copies sold to date, FIFA has redefined the sports videogame genre and established its own, indelible mark on the gaming landscape.

FIFA, the original game, launched in 1991. That initial game was the first ever to use 3D graphics and it remains the only sports videogame to feature global online multiplayer play.

The franchise today, on all formats, is part of the Electronic Arts portfolio of best-selling brands which also includes the Madden NFL®, NHL® and NBA LIVE® franchises. FIFA soccer, previously FIFA Soccer, is one of the world's most popular sports videogames with more than 111 million cumulative sold in over 30 territories, and consistently wins major international games awards. Leading the way in innovation, FIFA has a strong tradition of identifying, studying and improving real-world match phenomena. This data-driven research has allowed us to create intelligent, authentic playing styles that mirror those seen in the game’s real-world counterparts. The aim is to provide our players with the most authentic and fun experience possible. Additionally, FIFA is renowned for the innovative gameplay features that have made it stand out among other sports games. For example, in recent years FIFA introduced over-the-top dribbling, offsides, player skill ratings, the ability to switch shirts, play on both sides of the pitch and more. The current edition of FIFA introduces a host of new innovations. It is the first game to sport a fully integrated AR (augmented reality) experience.

In fact, every feature in the game leverages AR to create a more immersive, authentic playing experience. FIFA Ultimate Team™ is also 100% optimized for PS4™ Pro and PS4 Pro. And with the FIFA Interactive World Cup™ just around the corner, FIFA is introducing a host of new gameplay innovations on all formats. FIFA Ultimate Team™ on PlayStation 4™ is a revolutionary, fully integrated AR experience. Players can literally run around the pitch and interact with the environment, and in Fifa 22 For Windows 10 Crack, this is now fully integrated into all game modes. Another FIFA innovation – a first for EA SPORTS™ videogames – is how the Revolution Teammate AI is now built into every single element of the game. For example, it is now the foundation for how Teammates run their skills, intercept passes bc9d6d6daa
