Roblox is an online game platform and game creation system developed by Roblox Corporation that allows users to program games and play games created by other users. Created by David Baszucki and Erik Cassel in 2004 and released in 2006, the platform hosts user-created games of multiple genres coded in the programming language Lua. For most of Roblox's history, it was relatively small, both as a platform and a company. Roblox began to grow rapidly in the second half of the 2010s, and this growth has been accelerated by the COVID-19 pandemic. Roblox is free to play, with in-game purchases available through a virtual currency called Robux. As of August 2020, Roblox had over 164 million monthly active users, including more than half of all American children under 16. Although Roblox has received generally positive reviews from critics, it has faced criticism for its moderation, microtransactions, and exploitative practices directed toward children. Watch this video and more on Smart Learning Theory | Effective Teaching on The World of Action at Smart Learning Theory is an instructional framework developed by educationalists David Perkins and Chris Eifert, and further developed by others (their theory is based on 10,000 hours). Their key proposition is that the amount of time it takes to learn a skill, whether it be playing the guitar or becoming an expert in learning how to program, is directly proportional to the amount of time it has been practiced. Thus, the key to achieving expertise is to devote 10,000 hours of focused practice over a prolonged period of time.
